

## **SSS (Student Satisfaction Survey)**

**(For 2017-18)**

Student Feedback is a useful tool for teachers and administration for their self evaluation. The IQAC has designed a proforma to evaluate the effectiveness of teaching learning process. The IQAC team get this proforma filled up by the students of various class students. The feedback received from the students is shared with the faculty members which becomes a base of modification, improvement or alteration in the teaching methodology. However from session 2018-19, IQAC is planning to shift to online system of student feedback and in the process of designing the proforma for the same.
