Ludhiana.

CONCLUSION

Though the survey was conducted in online mode and data was collected through secondary data. But still, it was great experience to prepare this report and it enhanced our knowledge, skills and thinking capacity. The functioning and maintenance of school was upto mark. It provide good study environment to students. Teachers are well trained and very cooperative. However, the school has some negative points which are in need for taking into considerations. Serious attention should be given to cleanliness and hygiene as it is near Ganda Nala.
